Course Overview

This workshop will outline ways to prevent FOG from entering the wastewater collection and conveyance system, how FOG is treated at treatment facilities, and how successful FOG programs are being administered and enforced. The presentation is designed to stimulate a lively discussion with all attendees.

Target Audience

Active community leaders with responsibility for sewer systems, such as a System Operator, Borough / Township Manager, Supervisor, Council / Authority Member

Learning Objectives

At the end of this course, the student will be able to:

- Understand the need to control FOG;
- Understand how grease traps and interceptors function;
- Have the skill needed to operate a successful grease processing program; and
- Be able to implement a FOG management program for both a large and small service area.

Instructors

Chas Tevis, Highland Tank
Wayne Schutz, Derry Township Municipal Authority
Gary A. Parks, Peters Township Sanitary Authority
Rhonda Zellhart, Cranberry Township

Exhibitors/Vendors

Exhibitors/Vendors will be onsite to promote their equipment and services
