

# Wastewater Treatment Fundamentals 1 – Liquid Treatment

## Table of Contents for Course #3

<b>Chapter 5 – Fundamentals of Biological Treatment</b> .....	<b>175</b>
Introduction .....	175
Biological Treatment .....	176
Physical and Chemical Requirements for Biological Treatment .....	176
Microbiology .....	180
Bacteria in Secondary Treatment Processes .....	186
Microbial Growth Rates .....	194
Chapter Summary .....	203
References .....	204
Suggested Reading .....	205
<b>Chapter 6 – Wastewater Treatment Ponds</b> .....	<b>207</b>
Introduction .....	207
Purpose and Function .....	207
Theory of Operation – Facultative Ponds .....	211
Design Parameters .....	222
Expected Performance .....	225
Equipment .....	228
Process Variables .....	239
Process Control .....	247
Operation of Wastewater Treatment Ponds .....	249
Data Collection, Sampling, and Analysis .....	252
Maintenance .....	252
Troubleshooting .....	258
Pond Safety .....	258
Chapter Summary .....	264
References .....	266
Suggested Reading .....	267
