

WORKFORCE TRAINING - GREEN TECHNOLOGY PROGRAMS

Wastewater Treatment Plant Operator

Municipalities benefit by having HACC-trained employees

HACC Workforce Training has partnered with GHD to offer this Pennsylvania DEP-approved program for wastewater treatment plant employees who are candidates to become certified operators.

The benefits

As a municipal official, you are legally responsible for having trained, qualified employees. HACC's training program gives successful graduates the necessary skills to deal with 21st century technology. In addition, a wave of retiring baby boomers is creating the need for trained replacements. With HACC's training to become a wastewater treatment plant operator, your employee will:

- Acquire the knowledge and skills to deal with the technical advancements in wastewater treatment technology.
- Appreciate the importance of their role in shaping the future environment of communities.
- Apply their newly acquired knowledge and skills to solve mechanical and process problems within the plant.
- Have the opportunity to take the DEP Licensing Exams at two exclusive sittings: Dec. 2015 & May 2016.
- Earn a fast-track pathway to the level of Licensed/Certified Operator through successful testing.

Program details

Register your employee(s) now for this valuable training opportunity!

- Format: Classroom training reinforced by 12 WWTP tours to see the technology in operation.
- Schedule: 60 Sessions on Tuesdays and Thursdays, from 3:00 to 6:00pm, September 1, 2015-May 5, 2016.
